Infragard - News

John N. Balog
Transportation Security
and Safety Consultant

Profiles:

SourceFire

Joseph O'Laughlin is a Senior Product Marketing Manager at Sourcefire where he specializes in network security and launched Sourcefire's dedicated advanced malware protection appliance. His diverse background in security administration, IT auditing, management consulting and technical sales provides unique insight into understanding IT challenges and goals, especially as they relate to security.

Eric Howard joined Sourcefire in July 2005 as a Senior Security Engineer. Now a member of the Advanced Malware Protection team, Eric focuses on Sourcefire technology that helps discover, understand and block malware. Working in the information security industry for more than 15 years enables Eric to bring a broad perspective to developing unique in-depth defense solutions. Prior to joining Sourcefire, Eric operated his own consultancy, providing guidance and training on secure network architectures and the implementation of open-source security technologies.
