

Call for Papers

Dear ISSA Delaware Valley Members:

Our members are a valuable asset to the Information Security Community and have great experience in providing critical day-to-day security to the area's largest and highly-technical businesses. In the hopes of sharing experiences with all our members, the ISSA-DV is issuing a call for papers from its members for all future meetings, where members of the ISSA-DV community can share their knowledge, experiences, research, thoughts and ideas. Although we request topics relevant to the respective meeting theme, members may still provide other topics and information relevant to the rest of the Information Security Community.

Desired speakers should email their topics for future meetings to the ISSA-DV Board at issa-dv-board@issa-dv.org as early as possible for potential inclusion in the next scheduled meeting.

Presentation Dates and Deadline for Meetings

- Speaker submissions are due ten (10) days prior to the next meeting. Late proposals will be accepted and used as needed. Priority will be given to the earliest received requests.
- Confirmations will be sent at least five (5) days prior to the meeting where the presenter will speak.
- Presentation slides must be received two (2) days prior to the meeting. Please feel free to contact ISSA Headquarters should you have any questions.

Important Guidelines

- Case studies, interactive workshops, and advanced level presentations for experienced professionals are strongly encouraged.
- Sessions should focus on forward-looking solutions that will help shape the future.
- Practitioners are desired. Speakers from any company that sells or markets information security products or services should be responsible for information security within their organizations. A client may be submitted to present a case study.
- All presentations must be educational in nature and may not promote any company, product, or service.
- The ISSA does not pay travel expenses or honoraria; speakers will receive a full conference pass and an opportunity to network and support the information security community.
- Prior to submitting a proposal please obtain necessary approvals to present the information.
- Not all speakers will be selected from submissions; many speaking positions will be filled by nominated speakers.
- Presentations may be recorded and made available to ISSA members after the event. Please inform the ISSA-DV Program Chair at email: program_chair@issa-dv.org should you wish to opt-out of having your recorded session posted on the ISSA website.
- All things being equal, preference will be given to ISSA members.

Audio Visual Needs

- A microphone and LCD projector will be available for each session. Please be prepared to use your own laptop.
- Should you choose to use a Mac, you will be responsible for providing a converter or any needed cable adapters.
